FACT SHEET Solar Power Installations at State Facilities

Chuckawalla Valley State Prison

As part of the Governor Schwarzenegger's Green Building Initiative to reduce energy use 20 percent at major state-owned facilities, the Department of General Services is overseeing the installation of solar photovoltaic systems at seven sites statewide.

Approximately 3.2 megawatts of onsite electrical generation will be installed in these projects when completed, offsetting a portion of power normally purchased.

Electricity generated from these projects is delivered directly to the state facilities under a power purchase agreement with SunEdison, which owns and maintains the systems. The solar power projects are in various stages of installation:

Solar PV Project Location	Project Type	Status
Patton State Hospital (Dept. of Mental Health)	Parking lot canopy	Online June 2006
city of Patton, San Bernardino County	structure	
Chuckawalla Valley State Prison (Dept. of	Open field, ground	Online June 2006
Corrections and Rehab), city of Blythe,	mounted system	
Riverside County		
CSU Dominguez Hills	Parking lot canopy	Online June 2006
	structure	
CSU Chico	Rooftop mounted system	Completion
		expected Nov.
		2006
CSU, San Bernardino	Rooftop mounted system	Completion
	& parking lot canopy	expected Jan.
	structure	2007
CSU San Luis Obispo (Cal Poly)	Rooftop mounted system	Completion
		expected Nov.
		2006
Caltrans District 10 Office Complex, Stockton	Rooftop mounted system	Completion
·	& parking lot canopy	expected Nov.
	structure	2006

Benefits of solar energy:

- Clean, renewable power.
- Reduces the cost of energy to the state and, ultimately, to taxpayers whose tax dollars pay the energy bills at state-owned facilities.
- 3.2 megawatts of electricity from solar power equates to about the same amount of electricity consumed by approximately 400 homes a year.
- 3.2 megawatts of electricity from solar power is the equivalent of offsetting more than 1,800 tons of greenhouse gasses a year, which is like taking nearly 700 cars off the road for one year.
